Logo

Master Logo

The Saharsh logo features a geometric, modular form symbolising innovation, structure, and adaptability.

It's interconnected lines reflect the brand's focus on precision, flexibility, and modern living solutions.

This master logo is the preferred brand marquee to use on all applications.

Logo Variants

Stacked and monogram logos should be used in circumstances where sizing or space restrictions inhibit the use of the master logo.

The single colour variant should be used on all third party assets, this ensures legibility and removes likelihood of colour clashes.

MONOGRAM

Clear Space

A minimum area of clear space around the logo is applied to protect the clarity and visual integrity of the marque.

Clear space can be measured by using the spacing between the monogram and 'Saharsh' (A) and the difference in height of monogram and 'Saharsh' (B).

Logo Colors

Each logo can be used on either White, Linen White or Mirage Blue. The correct colours to use for each logo are detailed on the right.

MASTER LOGO

STACKED LOGO

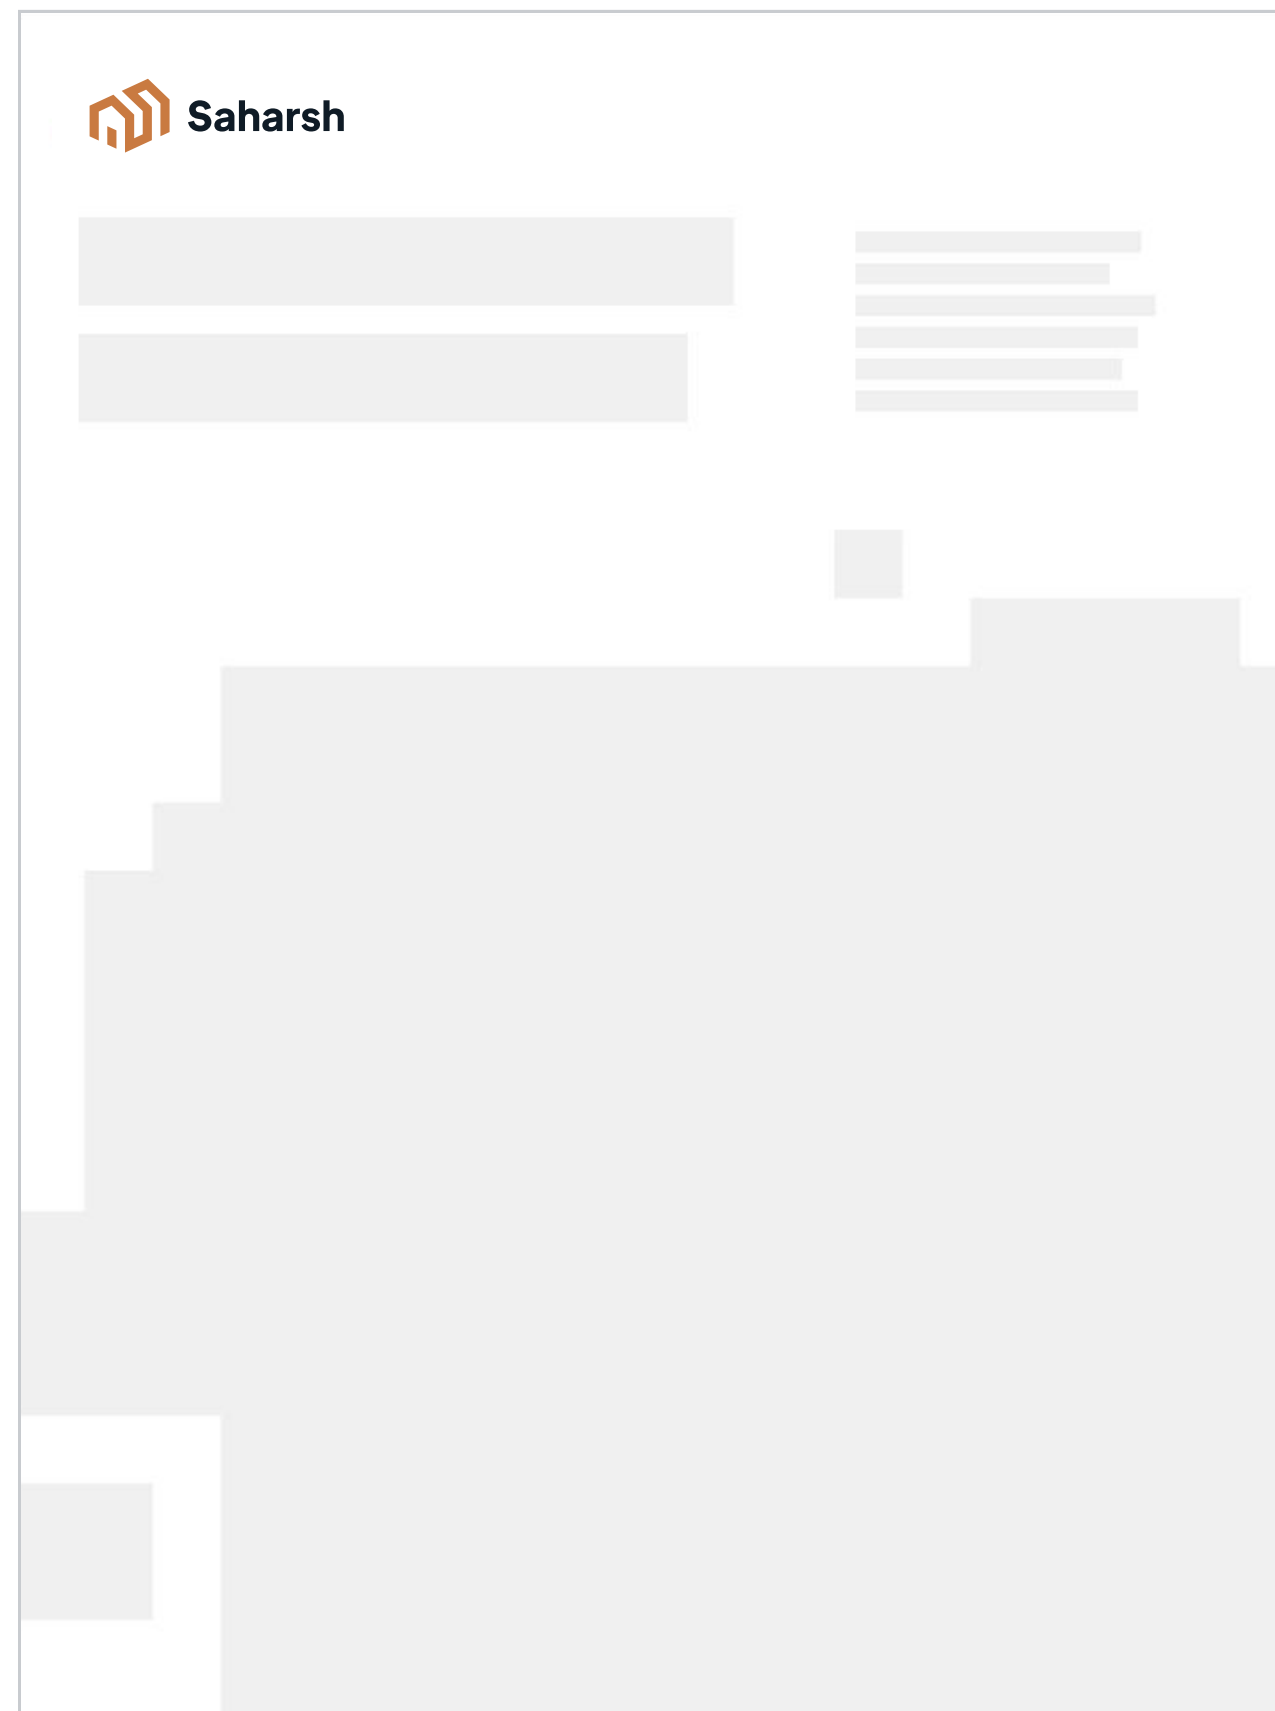

MONOGRAM

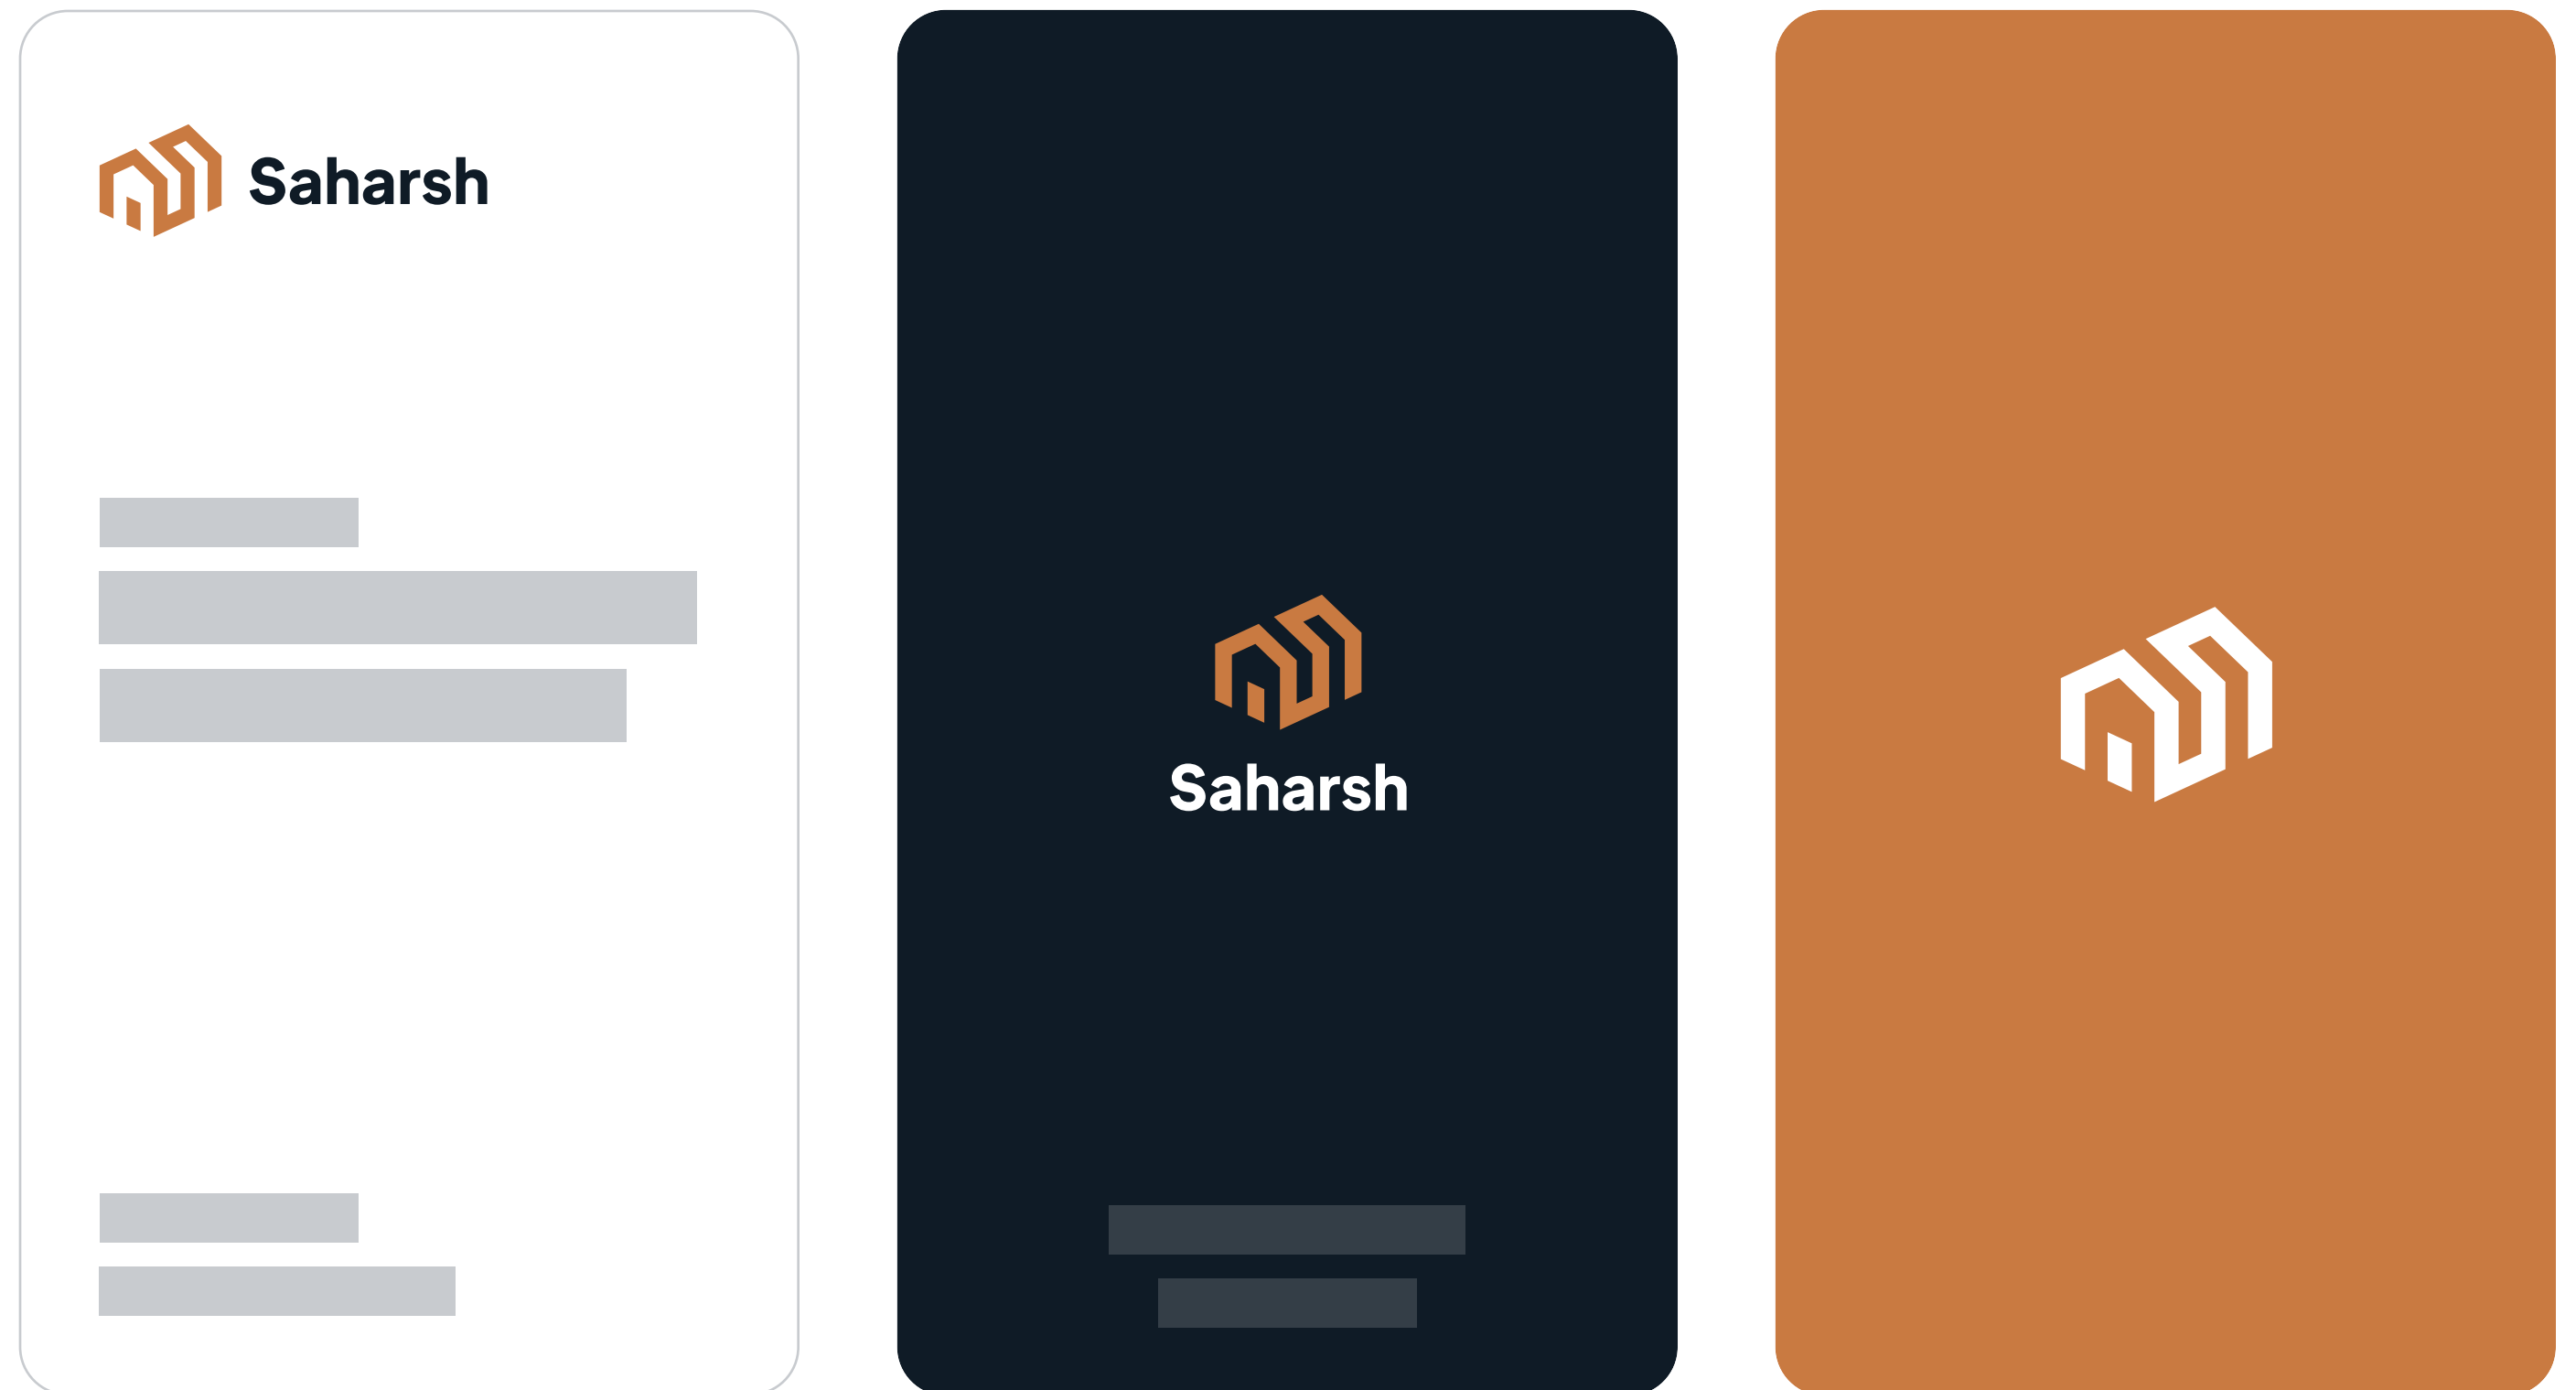

Positioning in print

The logo should be situated in the top left or right of the document where possible.

Positioning in digital

The logo should predominantly appear in the top left when displayed with other content, and centred where the brand is the main focus.

Sub-Brand Logos

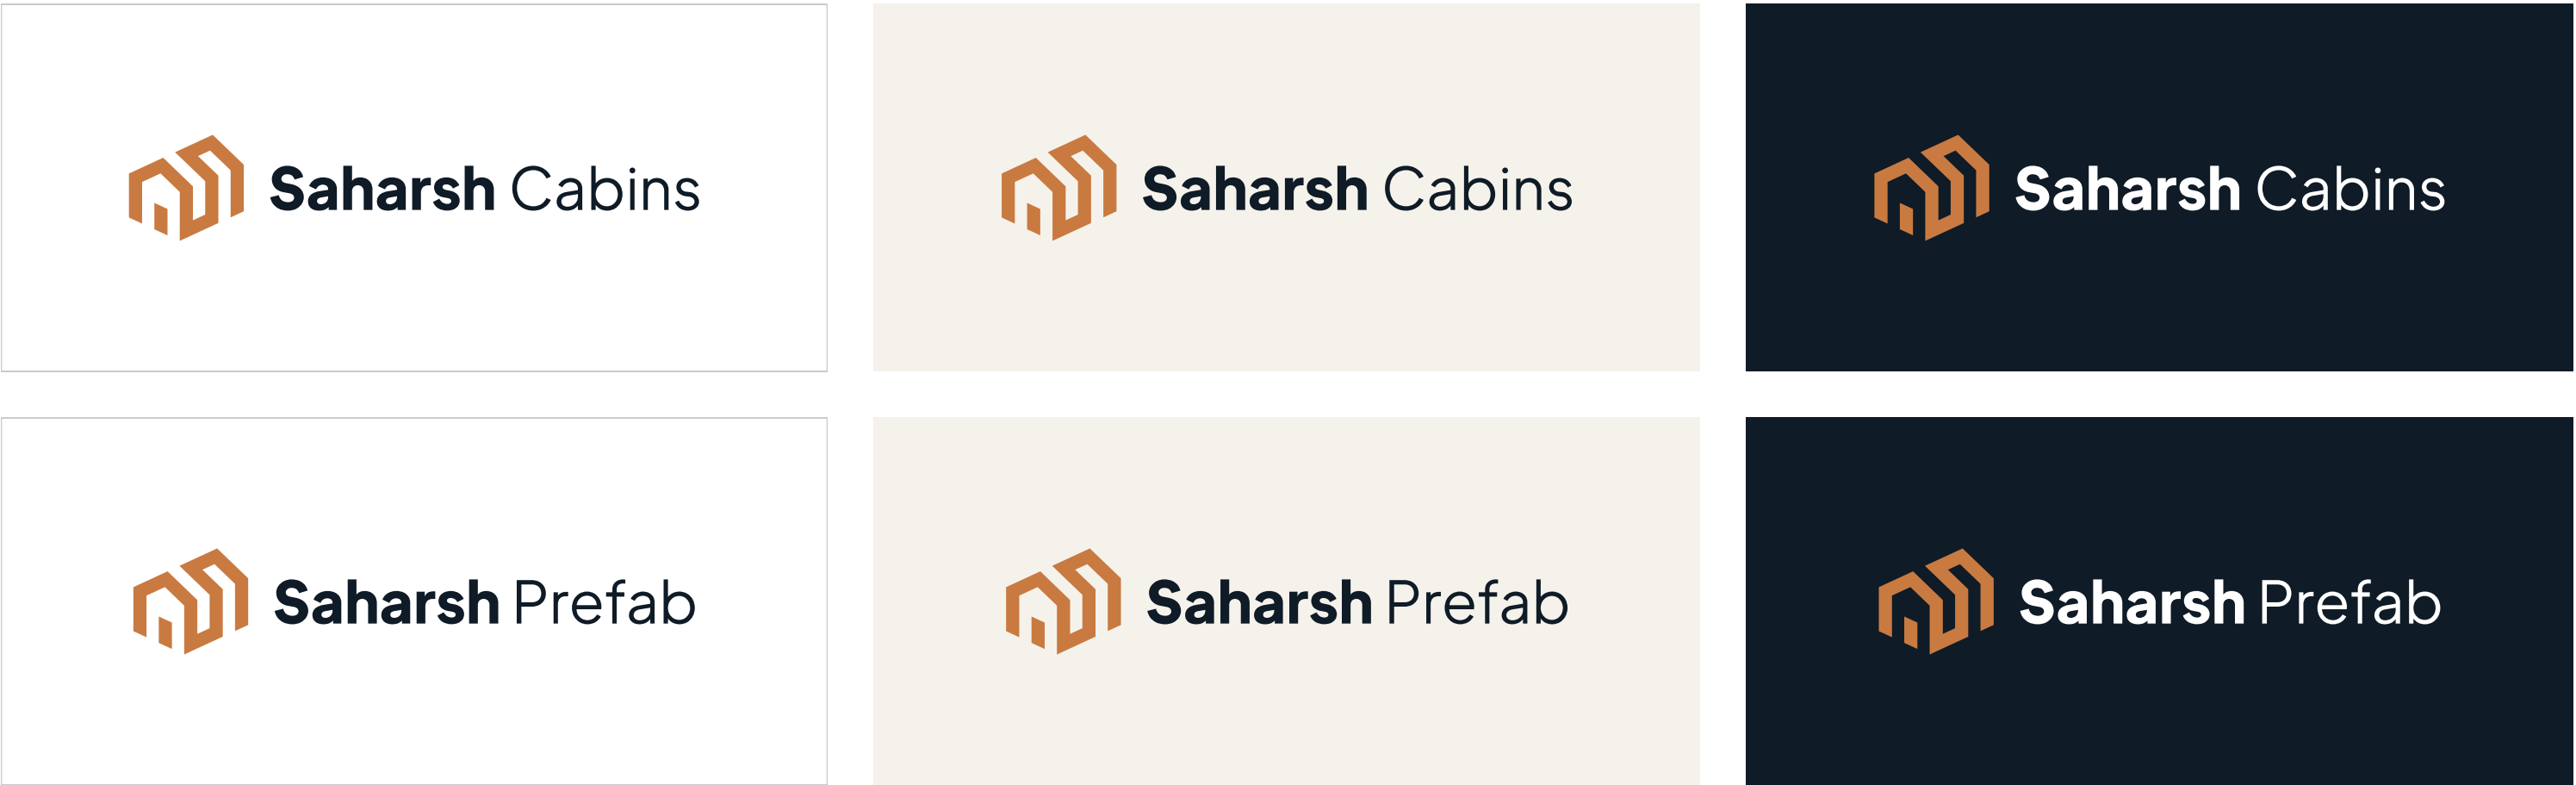

Saharsh icon remains consistent across all sub-brands. Only the descriptor(e.g. Cabins, Prefab) changes in the wordmark.

Use the approved color palette and maintain high contrast for legibility.

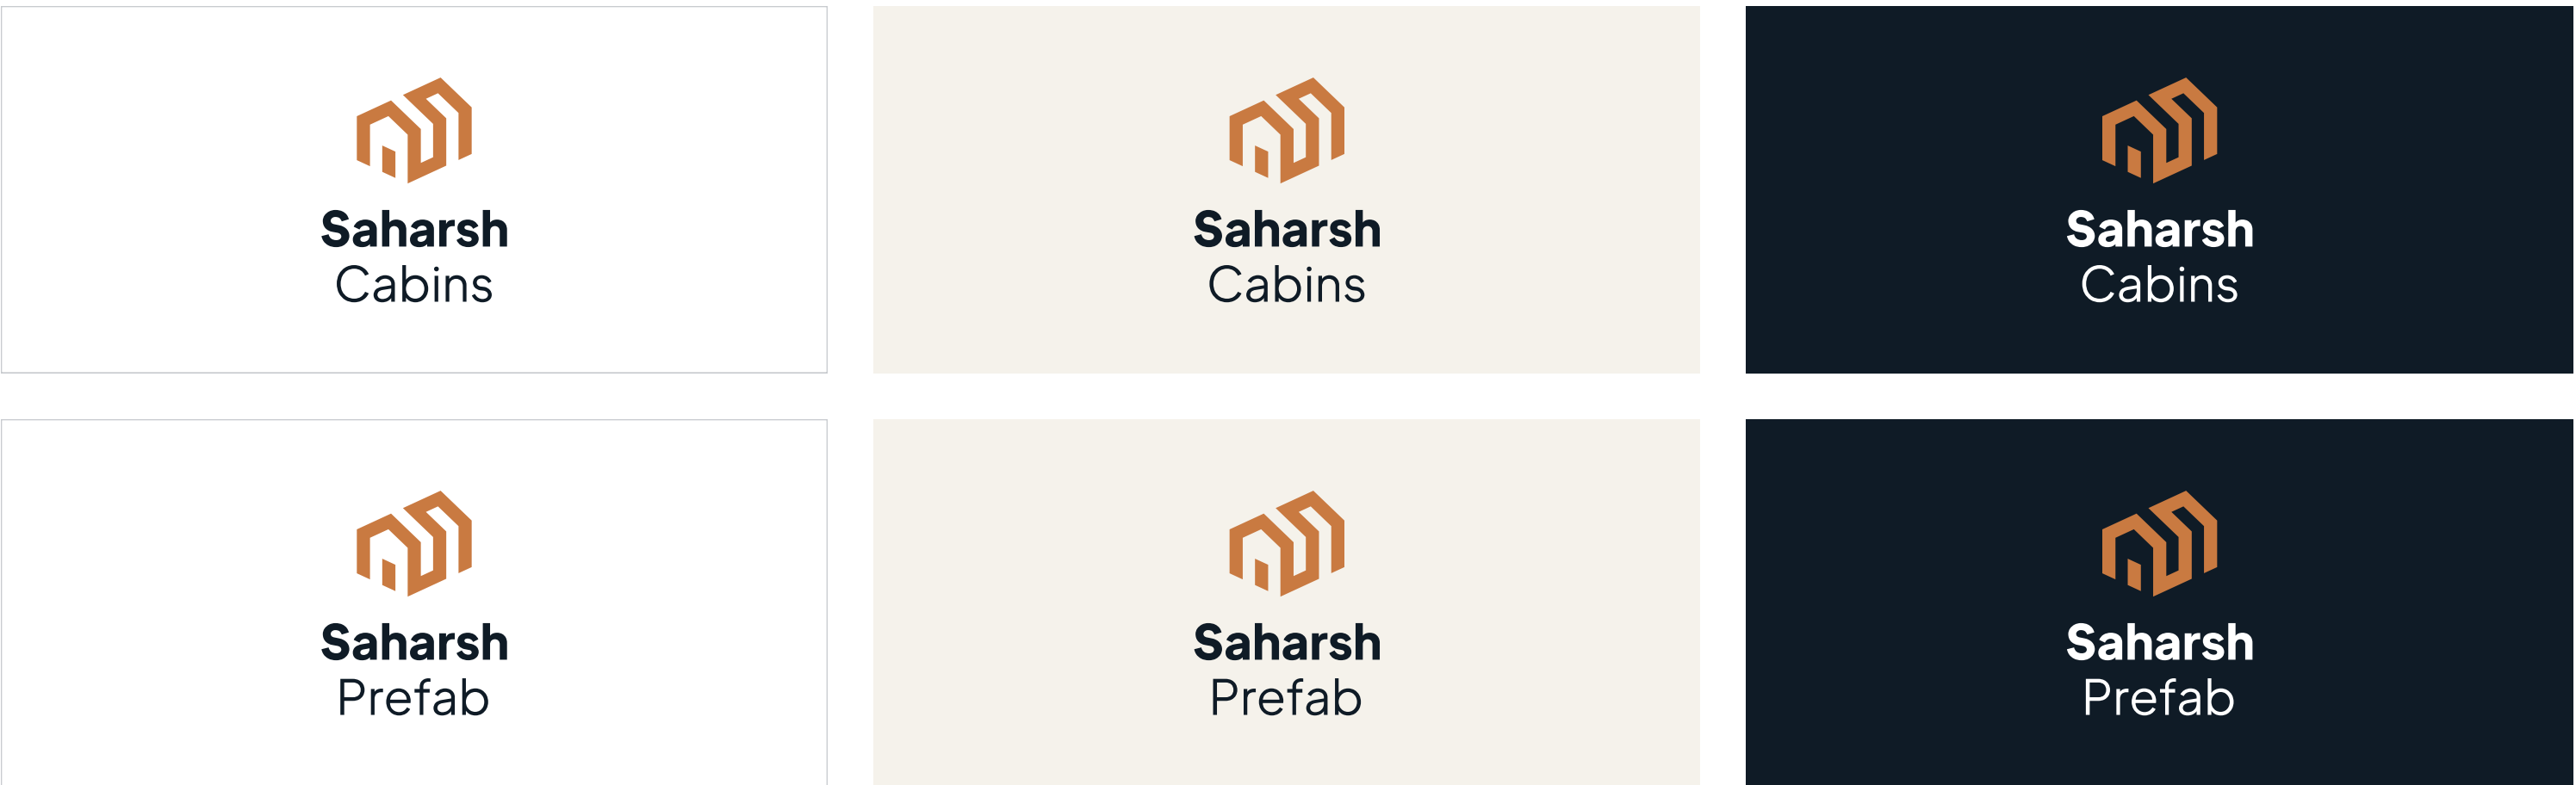

Typography must follow brand-approved fonts (e.g. Eudoxus Sans).

Apply the same clear space and sizing rules as the master logo.

STACKED LOGO

Logo Misuse

The logo has measures and proportions determined by criteria of composition, hierarchy and functionality.

Under no circumstances will modifications be made to these measures and proportions. This restriction also applies to the brand colors.

⊘ Do not distort the logo in any way

⊘ Do not angle

⊘ Do not rearrange

⊘ Do not recolor or add gradients

⊘ Do not alter proportions

⊘ Do not alter font or change case

⊘ Do not add any tagline

⊘ Do not add any effects

⊘ Do not change to outline

Typography

Primary Typeface

Our typeface is Eudoxus Sans. It is characterized by its clean, geometric forms and subtle rounded details.

It is used for all brand communications in both print and web, and is used for both headlines and body copy.

The following weights are permitted:

- Regular
- Medium
- Bold

The restricted variation of type weights is intended to ensure simple and clean typography which relies on pronounced size variation to provide visual hierarchy.

Extra Bold

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789!@£%^&*()_+

Type Usage

Eudoxus Sans Bold is used as the headline font in the majority of applications.

Sub-headers can be set in Eudoxus Sans Medium, while body copy is always set in Eudoxus Sans Regular.

In circumstances where a system font must be used, replace Eudoxus Sans with Inter.

Colors

Color Palette

The primary brand colour is Orange Clay. This is used on the majority of branded applications.

To aid consistency and brand recognition, these are the only colours that should be used. The colours are intended to be used at their full intensity, and should not be reproduced as tints.

PRIMARY

Orange Clay

RGB: 201 / 102 / 65
HEX: #C97A41

SECONDARY

Green Moss

RGB: 106 / 115 / 80
HEX: #6A7350

White Linen

RGB: 245 / 242 / 235
HEX: #F5F2EB

NEUTRAL

Dark Stone

RGB: 15 / 27 / 38
HEX: #0F1B26

Grey Steel

RGB: 200 / 203 / 207
HEX: #C8CBCF

White

RGB: 255 / 255 / 255
HEX: #FFFFFF

Color Usage

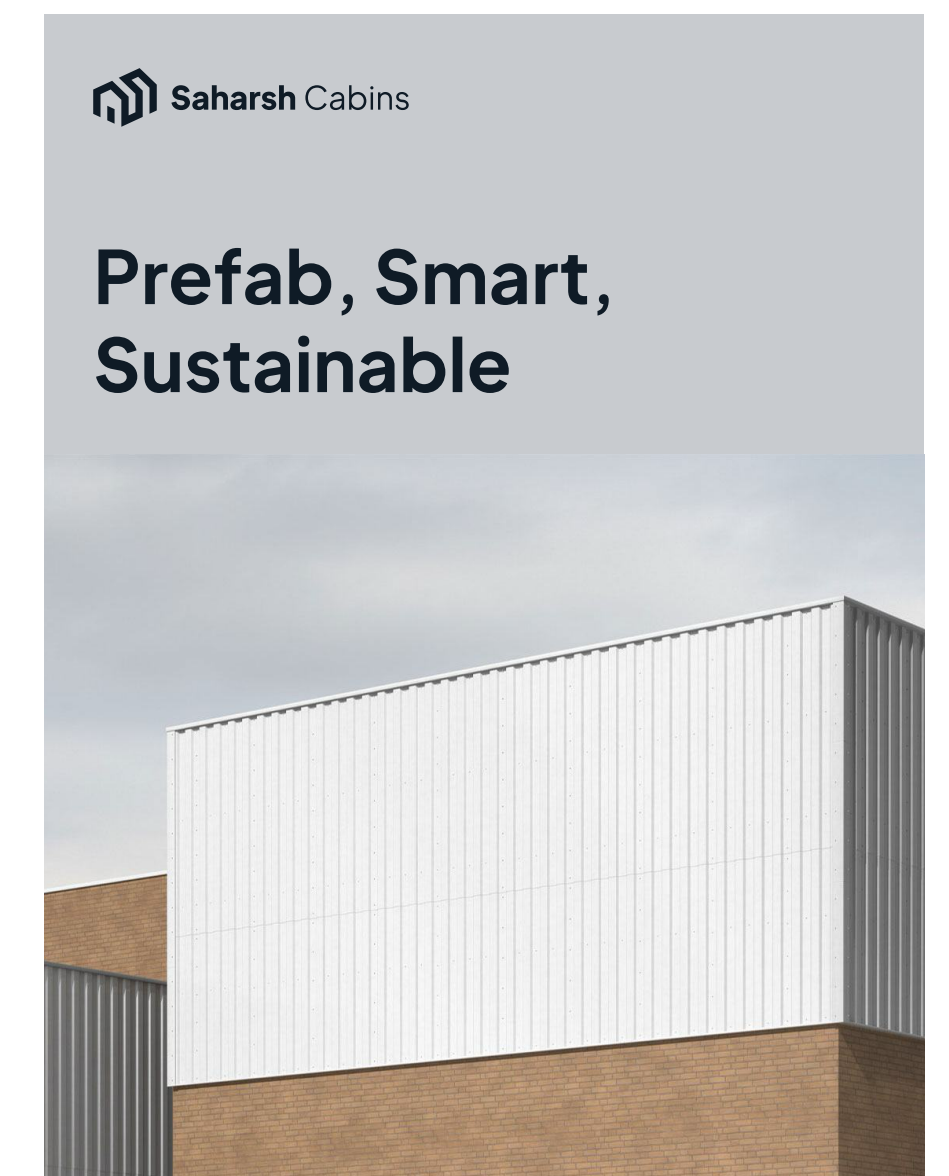

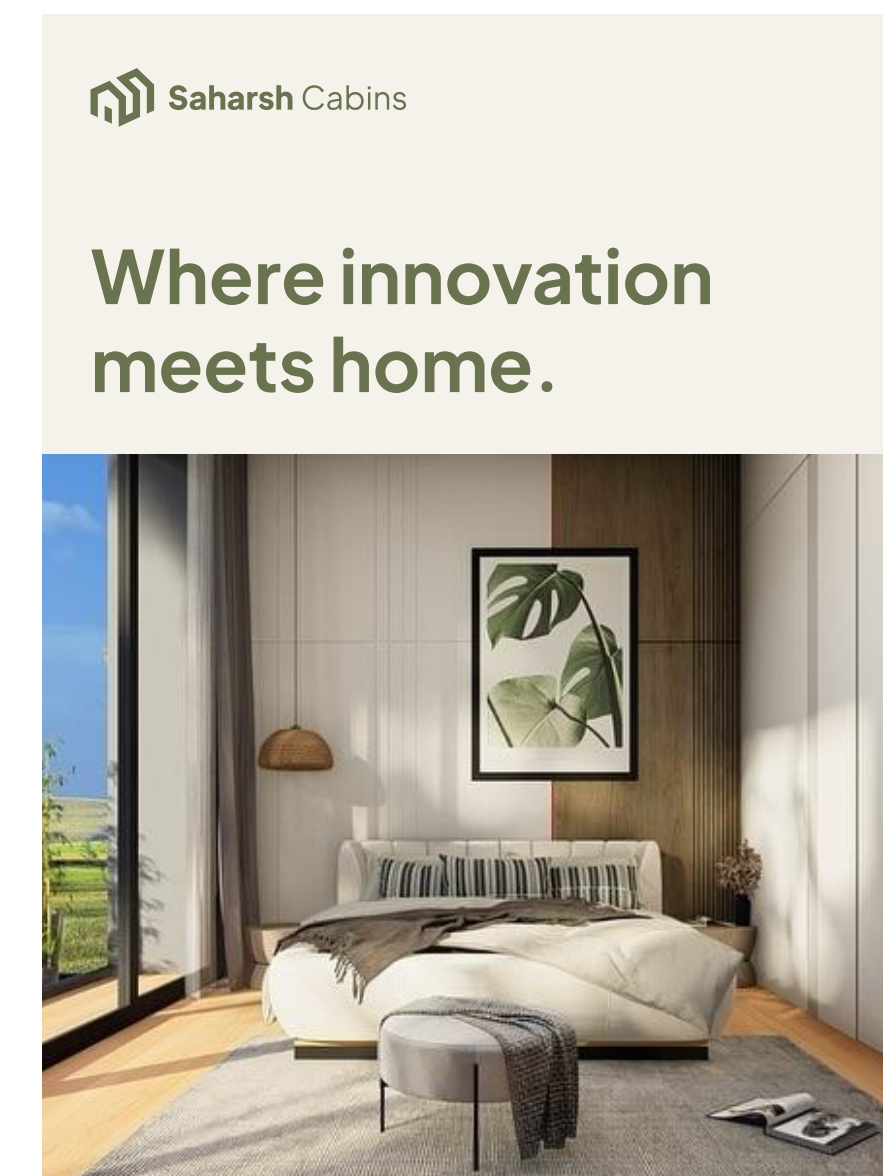

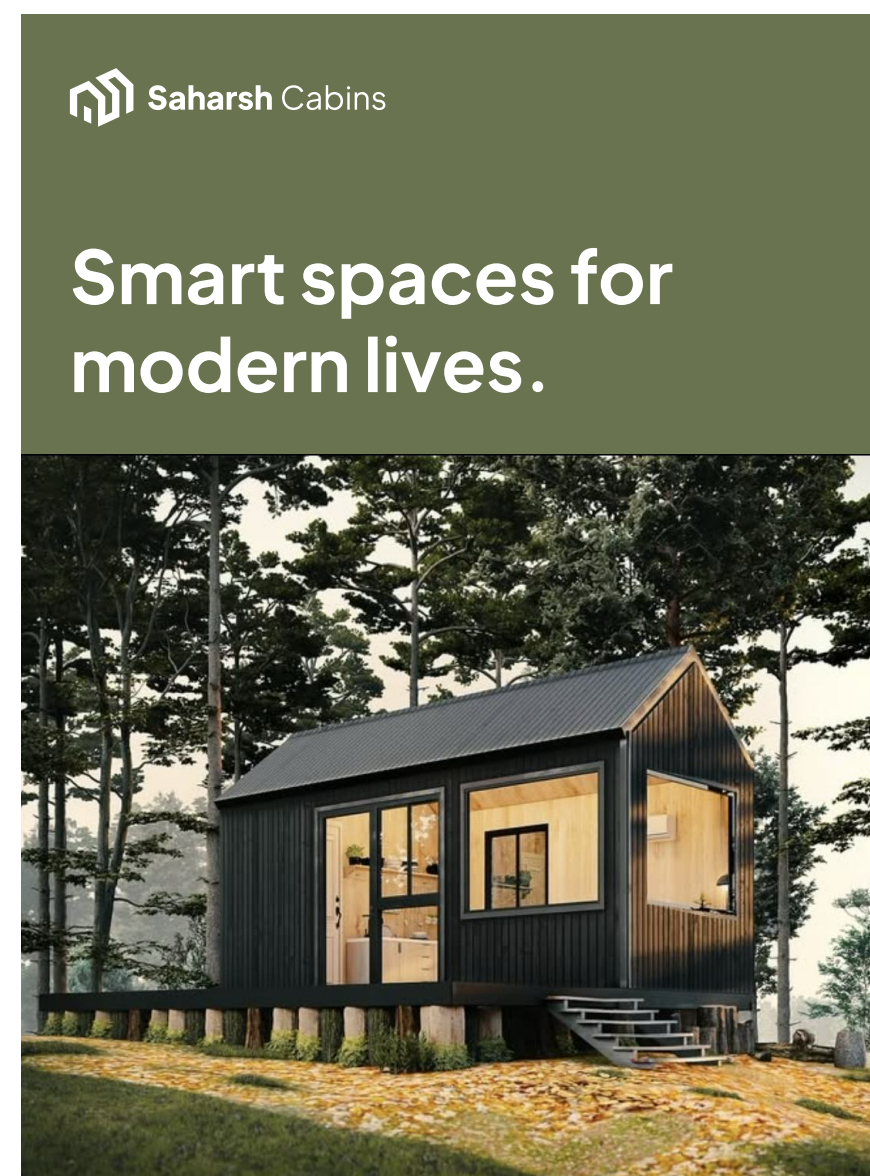

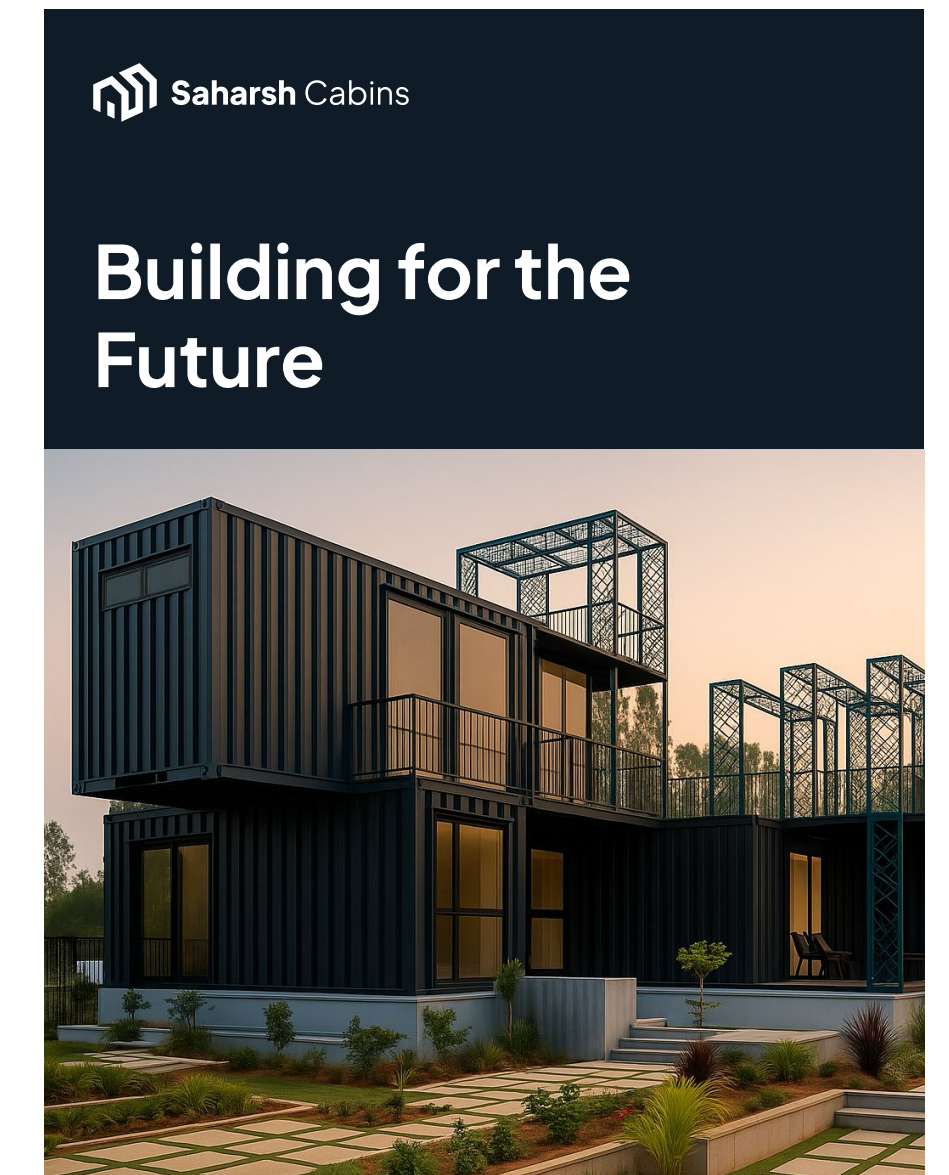

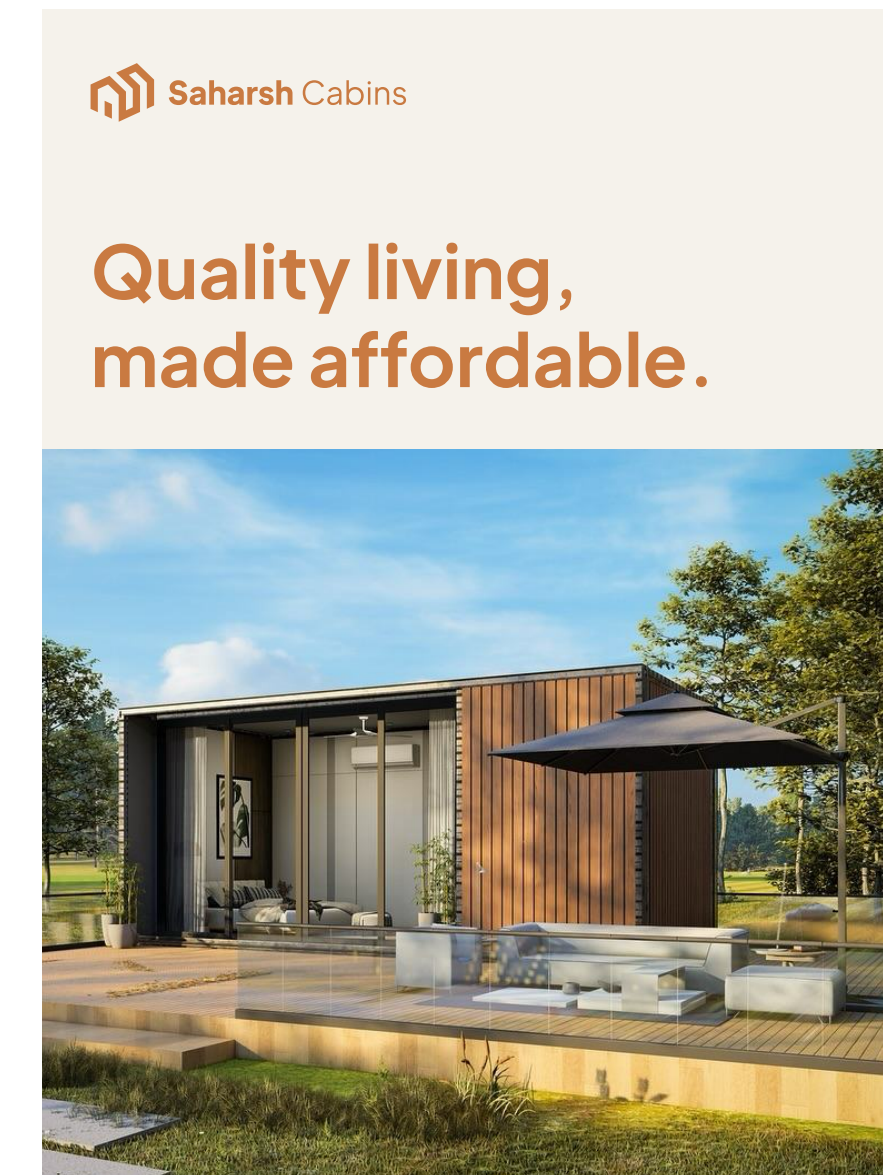

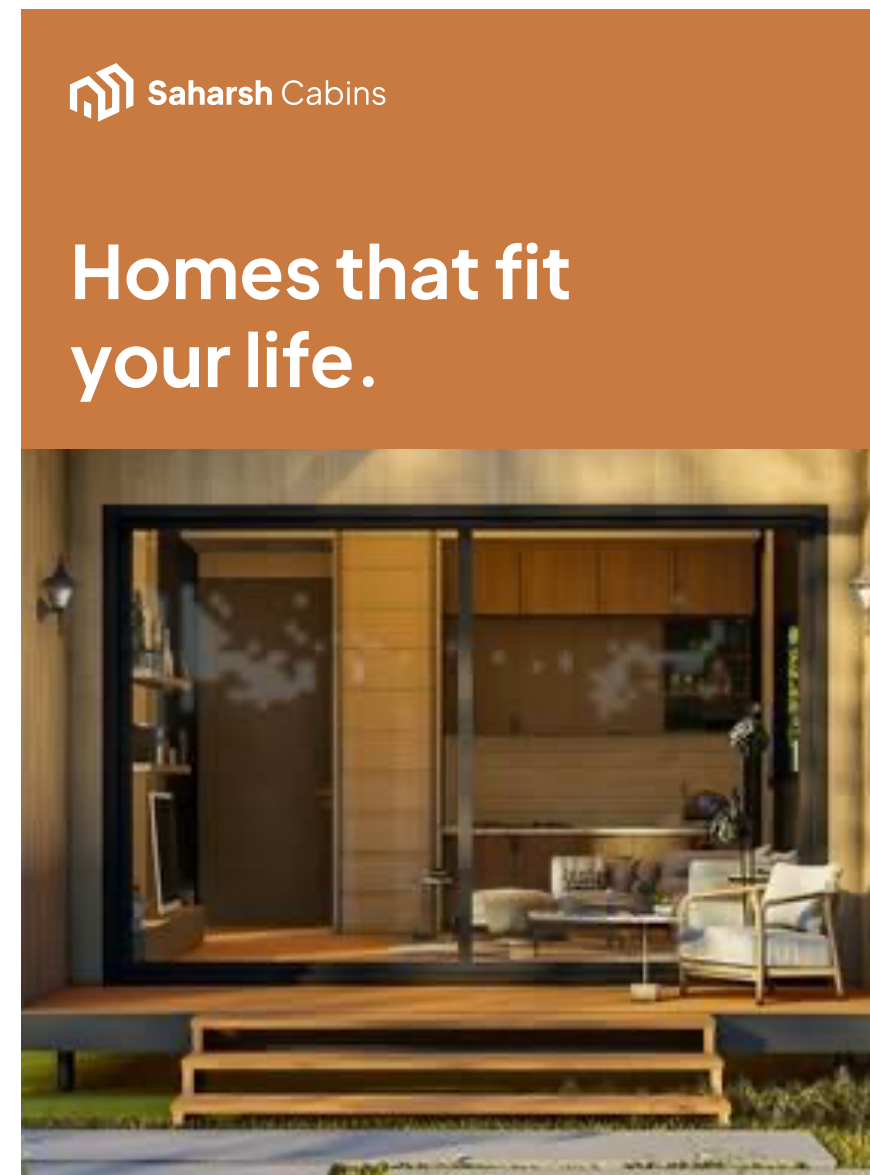

Saharsh's palette conveys warmth, sophistication, and modernity. Use colors intentionally to maintain a clean, premium tone.

Recommended usage:

- Orange Clay: For bold, welcoming headline blocks with white text.
- Green Moss: For nature-focused themes; pair with white text.
- White Linen: As a primary neutral base to keep layouts airy.
- Dark Stone: For text, accents, or deep backgrounds.

Avoid:

- Using multiple bold colors together without separation.
- Low-contrast color-text pairings that harm legibility.
- Overwhelming large areas with saturated color fields.
